

Technische Universität München

The Technical University of Munich invites to a conference in the Clinic for RadioOncology and Radiotherapy

OPASCA sponsors “Challenges in SBRT“

07.10.2019 On November 22nd, the Munich Clinic for RadioOncology and Radiotherapy will hold its annual meeting on the topic "Challenges in SBRT - Stereotactic Radiation". The format allows discussions on the topics of challenges and new opportunities in SBRT for radiooncologists and medical physicists. OPASCA supports the event with a donation of € 1000. We will also have a booth at the accompanying industrial exhibition.

The hospital is expecting numerous renowned experts from various disciplines. From 9 am to 6 pm scientists and specialists will speak in the auditorium pavilion of the Klinikum rechts der Isar. This year's lectures will focus on stereotaxy in tumors of the central nervous system, the lung, prostate carcinoma and vertebral metastases. The hot topic of the conference is "Radiosurgery of ventricular tachycardia".

On Saturday, following the symposium, the annual meeting of the [DEGRO Stereotaxy Working Group](#) will take place under the direction of Prof. Dr. Matthias Guckenberger of the University Hospital Zurich.

The homepage of the event can be found [here](#).

The detailed programme can be found in this flyer: "[Challenges in SBRT](#)".
